EQUINIX MIAMI DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Our Miami data centers are business hubs for 55+ companies. Miami customers can choose from a broad range of network services from 25+ providers. They can also interconnect directly to customers and partners in their digital supply chain. The Equinix metro Miami International Business Exchange™ (IBX®) data centers consist of 2 buildings with approximately 29,000 square feet (2,700+ square meters) of colocation space.

Our Miami data centers are in the heart of one of the largest Internet exchange points in the world and serve as a major communications gateway to the commercial centers of Latin America. The Miami colocation facilities provide direct connectivity to a variety of network service providers, ISPs and content delivery networks (CDNs), among others.

MIAMI IBX® BENEFITS

- Ability to serve Latin American markets while keeping infrastructure in the U.S. for regulatory, technological and operational simplicity
- Direct connectivity to leading Latin American networks reduces latency to customers in Central and South America
- Lowest latency route to Brazil via GlobeNet, a submarine telecommunications cable system linking the U.S., Bermuda, Venezuela and Brazil
- Business continuity with facilities outside of the evacuation zone for up to Category 5 hurricanes
- Access to undersea cable landing stations

IBX+ TECHNICAL SPECIFICATIONS

Building

Space

Colocation Space	19,000 ft^2 (1,765 m^2)
Building Type	1-story, steel/concrete structure
Parking	Adjacent to building (no charge)

Floor

Floor Type	Raised
Floor Load Capacity	400 psf (19.15 kN/m^2)

Flood Plain Info	Zone A

Fire Suppression	Double-interlocked, pre-action (dry pipe)

Facilities

Power and Cooling

Power and Cooling Density	3.0 - 5.0 kVA per cabinet
Utility Feeders	2
UPS Configuration	Block redundant
UPS Redundancy	N+1
Standby Power Configuration	2 x 2,500 kW diesel generators
Standby Power Redundancy	N+1
Cooling Configuration	Air-cooled screw chillers and water-cooled centrifugal central system
Cooling Redundancy	N+2

Security

Physical	Man trap entry
Human	24x7 security officers
Electronic	PIN & Card Readers, CCTV and Recorders, Motion Detection

Amenities

- Break Room
- Loaner Tools
- Showers
- Crash Carts
- Work Kiosks
- Wifi
- Conference Room

Products and Services

Colocation
- Private Cage
- Secure Cabinet
- AC Power Circuits
- DC Power Circuits
- Antenna

Interconnection
- Internet Exchange
- Metro Connect™
- Cross Connects
- Extended Metro Connect

Services
- Smart Hands™
- Migration Planning
- Equipment Sourcing
- Installation
- Professional Services

Packaged Solutions
- Performance Hub™
- Data Hub™

Reliability

Our IBX data centers boast an industry-leading, high average uptime track record of >99.9999% globally.

Certification and Sustainability

Certifications
- SSAE 16/ISAE 3402 SOC 1 Type II
- SOC 2 Type II
- ISO 27001

Green By Design
- LEED Gold
- Granular temperature controls and cold aisle containment
- Optimized lighting controls
